SuperstoreSales AnalysisandDashboard

Beginner Level – Data Analyst

Tools: Google Sheets, Pivot Tables, Formulas and Charts

Dataset: Sample Superstore Dataset (Kaggle)

Submitted by: Shreshthi Patil

Project Overview

Objective: Toanalysebusinesssalesdata and identify meaningful patterns in sales and profitability.

Dataset Information:

- Contains order, customer, product, sales, profit, and regional information.
- Includes product categories and order dates for trend analysis.
- Obtained from Kaggle.

Key Activities:

- Data organization and preparation
- KPI calculation
- Exploratory data analysis
- Dashboard creation

Key Performance Indicators (KPIs)

- **Total Sales:** $2,297,200.86
- **Total Profit:** $286,397.02
- **Total Orders:** 5,009
- **Total Quantity Sold:** 37,873
- **Average Order Value:** $458.61

Analysis Performed:

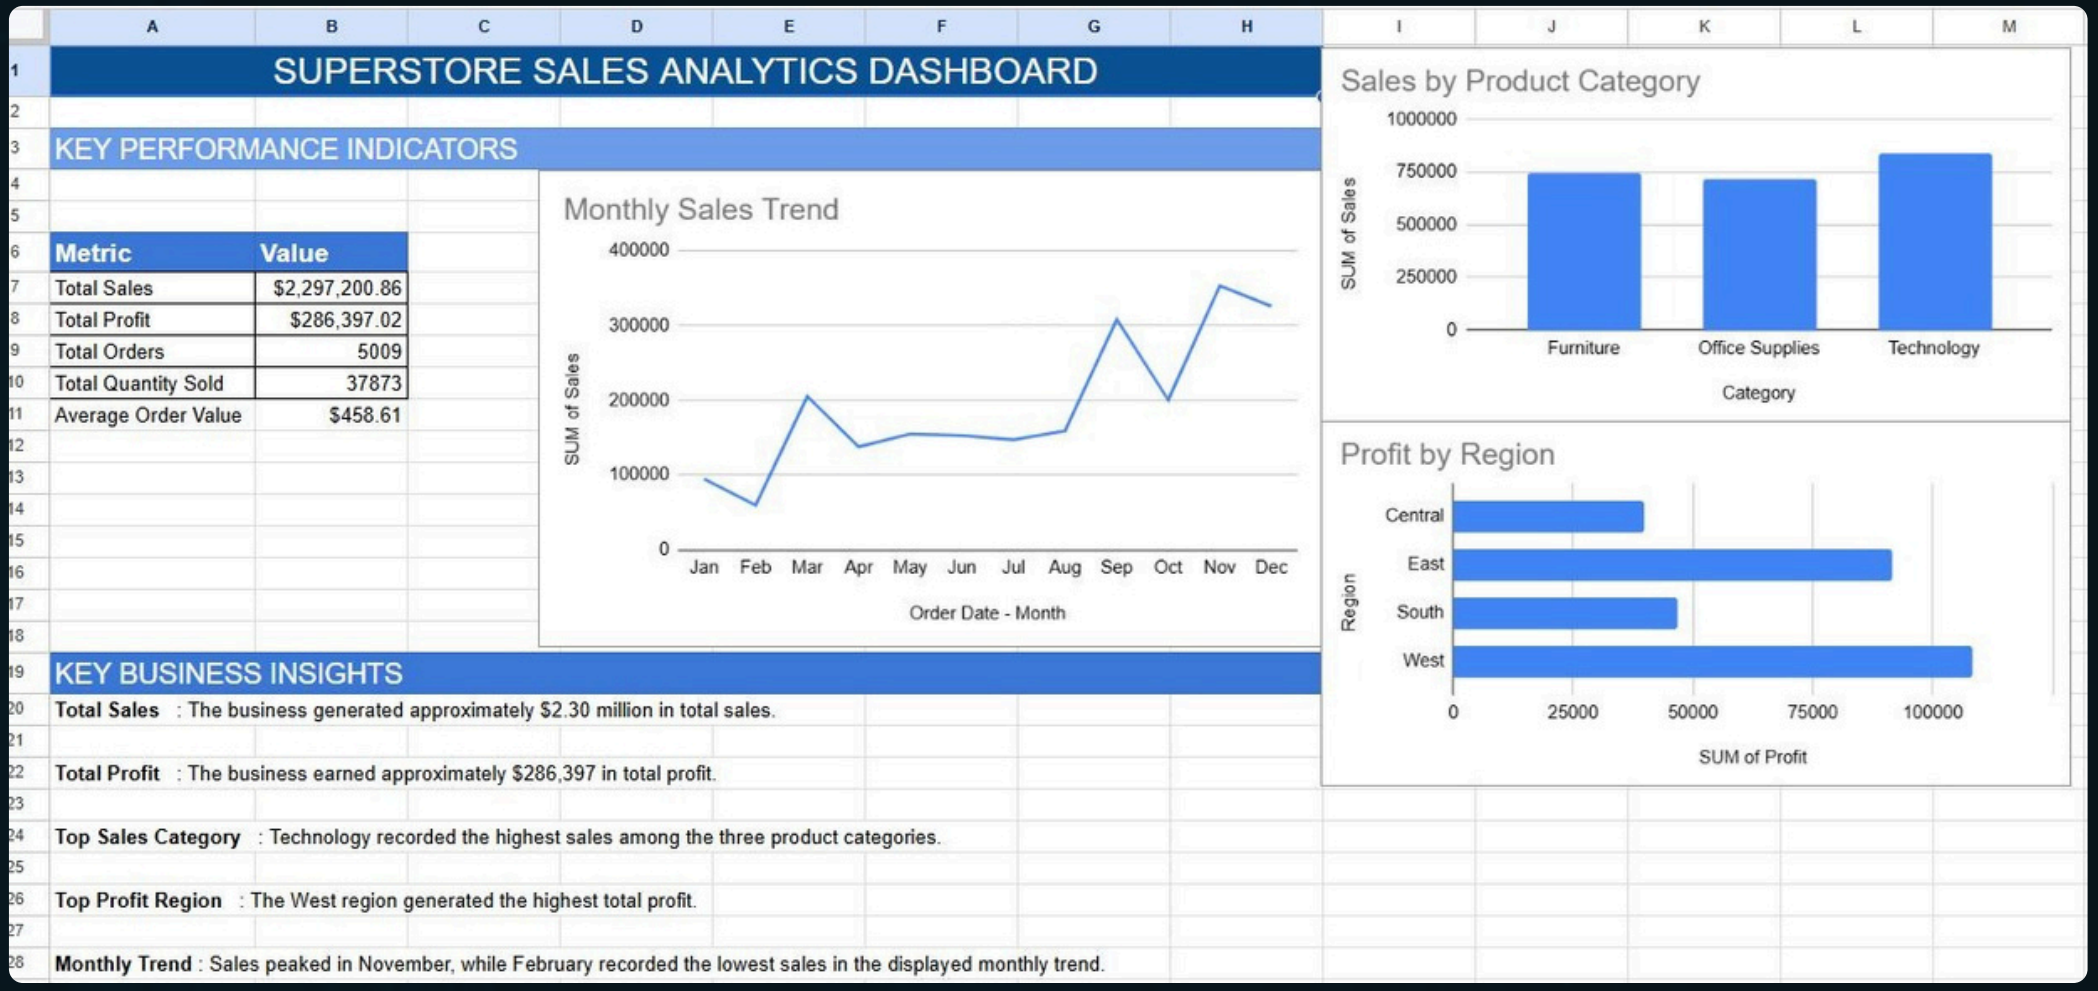

- Sales by product category
- Monthly sales trends
- Profit comparison across regions

Key Business Insights

- Technologyrecordedthehighestsalesamongthethree product categories.
- November had the highest monthly sales, while February had the lowest.
- The West region generated the highest profit among the regions analysed.

Dashboard Purpose: To present KPIs and visual trends in one place for easier interpretation and business decision-making.

KEY BUSINESS INSIGHTS
Total Sales : The business generated approximately $2.30 million in total sales.
Total Profit : The business earned approximately $286,397 in total profit.
Top Sales Category : Technology recorded the highest sales among the three product categories.
Top Profit Region : The West region generated the highest total profit.
Monthly Trend : Sales peaked in November, while February recorded the lowest sales in the displayed monthly trend.

Conclusion

This projectprovidedpractical experience in analysing business data using Google Sheets.

Key Learnings:

- Organizing and preparing datasets
- Calculating KPIs using spreadsheet formulas
- Creating pivot tables and charts
- Identifying trends and interpreting business insights
- Presenting results through a dashboard

Future Scope: Further analysis of customer segments, repeat purchases, and product profitability can provide deeper business insights.

THANK YOU
